

## 1166/1266 Bluetooth Wireless Barcode Scanner

### Wireless Freedom

The **1166/1266 Bluetooth Wireless Barcode Scanner** is ideal for retail, library, industrial, or manufacturing environments. The Bluetooth radio gives you complete wireless freedom! This unique technology allows you to scan barcodes and transmit them to your PC or laptop up to 160' away. You can even have up to seven scanners connected wirelessly to each base station. The complete **1166 Wireless Barcode Scanner Kit** (using CCD) is available for only \$407, and the complete 1266 kit (using laser) sells for \$499.

- **Safe linear imaging technology (1166) or standard laser scanner (1266)**
- **Small & lightweight**
- **Reading Range up to 25" (1266)**
- **Compliant with Bluetooth Version 1.2**
- **Working hours: 30 hours or 20,000 scans (1166); 50 hours or 35,000 scans (1266)**
- **Can be put into memory mode to capture thousands of scans for later download.**

### Flexible and Lightweight

The 1166/1266 is amazingly lightweight and can be used for most applications. The 1166/1266 also has a batch function, which allows the user to store thousands of scans within the memory of the scanner. This stored data can then be transferred to your PC into a spreadsheet or database. This scanner allows you to scan even the most difficult or badly damaged barcodes. In addition, the scanner beam allows you to scan up to 25" away.

### Complete Scanner Kit

Take your 1166/1266 Bluetooth wireless Barcode Scanners out of the box, and put them to work. Our scanner kit includes everything you need to start scanning. The 1166/1266 package includes:

- **Scanner:**  
Lightweight and easy to handle
- **Base Station:**  
Provides up to 160' range.
- **All Accessories:**  
Power supply, cable, and manual.

**1166  
Only \$407!**

**1266  
Only \$499!**
