Order It!

- Provides fast and accurate automatic order entry using barcoding.
- Performs automatic calculations on the order forms.
- Improves accuracy by eliminating hard to read handwritten order.
- Allows the sales team to take more order because of improved efficiency.

Order It! Consists of:

- A barcode reader to scan the SKU's or UPC codes of a product you are selling.
- Software for your PC that automatically fills in the order with the data captured from the barcode reader.

How Order It! Works

- You start the whole process by scanning in items and entering quantities.
- Then, you import the data from the scanner into the form.
- Fill out the company information, such as name and address.
- Print or save the form for later printing.

Taking the Order

- First—take the order for the customer using the handheld scanner by scanning in items and entering quantities.

Open Order It! On Your PC.

- Second— Open up the Order It! Application Program to fill in the order.

The screenshot displays the 'mss Software' application window. The title bar shows columns A through O. The interface includes a logo in the top left, a grid of buttons on the right, and a main data entry area.
