

Student Attendance Tracker (SAT)

- Track students coming into practice, events or classrooms using barcoded badges or tickets.
- Prevent more than one entry per ticket, if required.
- Look up preloaded student names to verify entry.
- Track date and time student entered the event or classroom.

Overview

The Student Attendance Tracker is a simple, yet effective system that allows you to track students coming into events. It lets you load a look-up file of barcode numbers and names to provide verification about the individual scanned. It also allows you to prevent more than one entry per ticket by alerting the user of a duplicate scan. This software package uses a portable barcode reader, which captures the badge number and looks up pre-loaded student names. It also tracks the date and time the student entered the event. This data can then be quickly and easily transferred to your computer.

	A	B	C	D
1	ID	Name	Date	Time
2	123456	Bill Clay	2/8/2008	12:00
3	234567	James Madison	2/8/2008	12:01
4	345678	Linda Crum	2/8/2008	12:02
5	552521	Charles Joyce	2/8/2008	12:02
6	885858	Ray Stevens	2/8/2008	12:02

The Student Attendance Tracker captures the data shown in the spreadsheet above.

Easy to Use!

Whether you are a new user or an expert, you'll find the Student Attendance Tracker is simple to use. Just scan a student's badge or ticket, using the portable barcode reader to:

- Track attendance and capture the badge numbers of students entering an event.
- Use pre-loaded lookup tables to retrieve the names of the students entering an event.
- Prevent duplicate entry with one ticket.

The Student Attendance Tracker can be used to track attendance at special events, classes and music or athletic practices.

Other Features

The Student Attendance Tracker enables you to:

- Sort the data in ascending order.
- Easily convert lookup tables to a file format needed by the scanner.
- Automatically load any updates, as well as download collected scanner data, to your computer each time the scanner is docked.

Complete Package

The complete package, including one barcode reader and the software, costs only \$1095. Additional scanners are available for \$495 each, or you can rent them for \$125 each per week. LabelWorks 3.0, a barcode badge design and print software, is also available for purchase for \$125.
