

Inventory Tracker

Key Features

- Update inventory of items coming in and out.
- Keep a running total of your inventory.
- Keep a list of all transaction records from the daily inventory for later review .
- Determine who removed or added to inventory and when.

Overview

MSS Software's Inventory Tracker allows users to quickly determine how much inventory a company has in stock on a daily basis. You can also keep a list of all transaction records from the daily inventory for later review. Inventory Tracker is a complete kit, consisting of a portable barcode reader and an inventory software utility that works with Microsoft Excel.

Benefits

With the Inventory Tracker, you no longer need to use cumbersome manual methods of tracking inventory. It can all be automated, saving you time and money! The scanning is very simple to do, and your staff can be shown how to use the barcode readers quickly. The software can be used for any of the following purposes:

- Know what items you have on hand in inventory on any given day.
- Maintain a list of all transaction records from the daily inventory for later review or reports.
- Keep from running out of stock by reviewing regularly.
- Determine who removed or added to inventory and when.

The Software Utility

- First, using the portable barcode reader, scan the barcode on your inventory and enter the quantity of that item.
- After completing the scanning of your inventory, you can now upload the data from the barcode scanner to you PC.
- Just put the barcode reader in the dock, which is connected to your PC through a USB cable, and click 'Upload' on the reader. The data is automatically uploaded to your computer.
- The uploaded data can now be opened as an Excel spreadsheet or can be saved in other file formats, as needed.
- Using the software utility, you can update the Part Number and Quantity of the Master Table.

The Barcode Reader

Inventory Tracker comes with a simple but powerful barcode reader, about the size of a cell phone. Just point the scanner at a part number, scan the barcode, then enter the quantity. The scanner contains up to 2MB of memory and reads 5 mil to 20 mil barcodes. In addition, MSS Software rents barcode readers, so if you need more equipment for periodic inventories, just give us a call!

The Inventory Tracker consists of a portable barcode reader and a software utility.

By using Inventory Tracker, you automate your inventory, increasing accuracy and speed. The end result is you save both time and money.
