

# Student Attendance Tracker (SAT)

- Track students coming into events or classrooms using barcoded tickets or badges.
- Prevent more than one entry per ticket, if required.
- Looks up preloaded student names to verify entry.
- Tracks data and time student entered the event or classroom.
- Easily transfer data to your PC.

## Overview

This simple, yet effective program allows you to track students coming into events. It allows you to load a look-up file of barcode numbers and names of individuals to provide verification about the individual scanned. It also allows you to prevent more than one entry per ticket by alerting the user of a duplicate scan. This software package uses a portable handheld barcode reader, which captures the badge number and looks up pre-loaded student names. It also tracks the date and time the student entered the event. This data can then be transferred to your computer.

	A	B	C	D
1	<b>ID</b>	<b>Name</b>	<b>Date</b>	<b>Time</b>
2	123456	Bill Clay	2/8/2008	12:00
3	234567	James Madison	2/8/2008	12:01
4	345678	Linda Crum	2/8/2008	12:02
5	552521	Charles Joyce	2/8/2008	12:02
6	885858	Ray Stevens	2/8/2008	12:02

*The Student Attendance Tracker will capture the data shown in the spreadsheet above.*

## Easy to Use!

Whether you are a new user or an expert, you'll find the Student Attendance Tracker is simple to use. Just scan a student's badge or ticket, using the portable barcode reader. Use the Student Attendance Tracker to:

- Track attendance.
- Capture the badge numbers of students entering an event using a barcode reader.

- Use pre-loaded lookup tables to retrieve the names of the students entering an event.
- Prevent duplicate entry with one ticket.

## Other Features

Some of the specific features of the Student Attendance Tracker are:

- Enables you to sort data collected in ascending order.
- Enable you to easily convert lookup tables to a file format needed by the scanner.
- Automatically loads any updates, as well as download collected scanner data, to your computer each time the scanner is docked.

## Complete Package

The complete package, which includes one barcode reader and the necessary software is available for only \$750. If more scanners are needed, they can be bought for \$495 each or rented for \$100 each per week. Also, barcode badge design and print software is available and works with any Windows-based printer. LabelWorks 3.0 allows you to print from a database or spreadsheet as well. It cost is only \$125 and comes with our complete instructions to get you started.
