Overview

ScanCount Pro (SCPro) is a fully functional data collection program for Windows Mobile devices. It can be used to collect inventories, scan badges, do inspections, verify deliveries and a variety of many other tasks.

All the data collected on the mobile devices can be easily transferred to the PC for use with your inventory, accounting, asset tracking or other programs. You can also print receipts and/or barcode labels from SCPro as it works with a variety of mobile printers.

products, SCPro gives you the flexibility for both. SCPro allows you to design your label or receipt template so that you gain maximum advantage with your application.

This program has so many features that make it so flexible. Please give us a call at **800-428-8643** to discuss your application to see if this is a great fit for you.

ScanCount Pro works with a variety of WinMobile and WinCE devices

Configurability

SCPro is configurable. It can be configured with different prompts, fields, lengths, numeric or alphanumeric input, scanned, keyed, etc. You can change from one to six fields as well as a date/time stamp. A lookup table can also be loaded for verification or to pull in data to fill in fields such as description, serial #, etc.

SCPro Features

- Six customizable fields and prompts such as location, PN, SN, description, etc.
- Load lookup table for quick verification of barcode or to pull-up other fields of data.
- Print receipts or barcode labels using Bluetooth or Serial printers.
- Review and delete bad entries on the fly.
- Add Date/Time stamp for each transaction.
- A variety of data communication methods including wireless.

Printing Receipts or Labels

SCPro can easily print out transaction receipts or labels using a mobile Bluetooth or cabled printer. So, whether you need to print out a delivery receipt or you need barcode labels for shelves or
