# SOLUTION Components

FOR VA Hospitals

**Software**
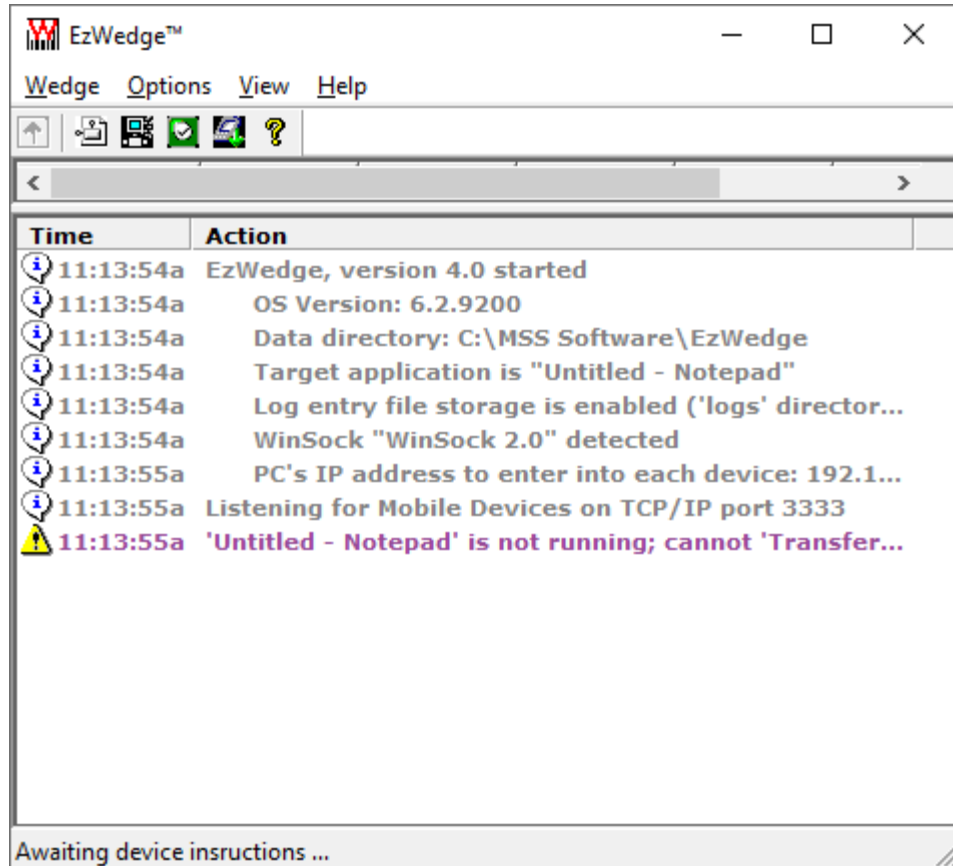

EZ-Wedge Communication
Utility

**Hardware**

Ethernet Module for CK3 Docks

An Alternative Communications Toll will Extend the Life of Existing
Equipment and Reduce the Total Cost of Ownership

# OVERVIEW EZ-Wedge

FOR VA Hospitals

## ABOUT EZ-WEDGE

Based on TCP/IP standards, the EZ-Wedge software easily transfers data from mobile barcode readers such as the CK3 via a wired Ethernet cable through the network and to the user's PC.

- Easily transfer data from supported mobile devices to a Windows 10 PC
- Developed and supported by MSS Software
- Replacement for Windows Mobile Device Center (WMDC) when combined with Ethernet module for FlexDocks

# OVERVIEW Ethernet Adapter

FOR VA Hospitals

**ABOUT ETHERNET MODULE**

Module plugs into the USB port of Desktop base/dock to provide Ethernet communications.

- Easily transfer data from supported mobile devices to a Windows 10 PC
- Compatible with FlexDock based for CK3X, CN51, and other models
- Replacement for Windows Mobile Device Center (WMDC) when combined with EZ-Wedge

# Thank You!
