# MAXIMO VistA
## Scanner Kit

## Overview

The new Maximo VistA Scanner Kit features an extremely rugged data collection device that is easy to use and fully compatible with the VA's Maximo and VISTA System. It comes with the following applications developed by MSS Software for AMES/MERS, GIP and Maximo.

- MAXIMO – Asset Tracking
- PRCUS – Expendable Usage
- PRCPH – Expendable Physical Count
- ENNX – Non-Expendable
- ENPM – Preventative Maintenance

The VA has been successfully using the VISTA software applications for many years. Now, it includes the MAXIMO system so that you can use it for tracking your assets.

## Rugged and Precise

The CK3X mobile device that is included with the kit combines ruggedness with an integrated high-performance 1D/2D scanning capability. It uses a Windows Mobile 6.5.3 operating system with a high performance chip set that gives instantaneous results. This unit can withstand multiple 5-foot drops to concrete and is sealed against rain, dust and moisture. In addition, the backlit keypad is wear-proof, and the touch panel glass is chemically strengthened for extra durability.

## Key Features

- MAXIMO, AMES/MERS and GIP Compatible
- Seamless application portability
- Exceptional scanner imager and long-lasting battery life
- Future expansion capability through RFID Accessories

## Innovative Technology

The CK3X imager (EA30) has a "laser-like" aimer that delivers high speed, accurate 1D and 2D barcode reading in any orientation. The battery lasts a full shift and powers a bright QVGA display that's easily viewed in full sunlight. It also provides quick and reliable data connectivity for uploading large amounts of data. And finally, the CK3X is also ready to accommodate a field-attachable RFID reader handle allowing you to upgrade to RFID in the future without replacing the whole device.

## How to Order

The Maximo VistA Kit includes the mobile computer with preloaded and licensed MAXIMO and VISTA Software Programs, KWedge data transfer utilities and accessories.
